PRICES IN FLUID MARKETS

January prices paid by dealers for milk used for fluid purposes averaged $6.33 per hundredweight for 176 markets, according to the Crop Reporting Board. The average for early January 1968 is unchanged from December 1967 but is 18 cents above a year earlier. By regions, prices ranged from 2 to 32 cents above a year earlier.

Store prices to consumers for the most common grade of whole milk sold in 25 cities averaged 51.4 cents per half gallon in early January. This was up slightly from December 1967 and nearly 1 cent above January 1967. Home-delivered quart prices for the 25 cities averaged 31.6 cents in January--about unchanged since October 1967 but nearly 1 cent above a year earlier.

In New England, dealers' Class I prices averaged $6.78 per hundredweight for January 1968--unchanged from a month earlier but 5 cents under a year earlier. Consumer prices for milk purchases in stores and home-delivered were mostly unchanged from a month earlier in the region. Most significant changes were 1 to 3 cent per quart increases for store sales in Concord, New Hampshire and 1 to 2 cent increases for home-delivery milk in the Augusta-Portland, Maine area.

Class I milk prices in the Middle Atlantic States averaged $6.64 per hundredweight for January--unchanged since October 1967 but 12 cents above a year earlier. Consumer prices in the region were mostly unchanged from December except in several New York markets where they were 1 cent per quart higher.

Dealers' prices for fluid-use milk in the East North Central Region averaged $5.88 per hundredweight in January 1968--the same as October, November, and December 1967 but 24 cents per hundredweight above January 1967. Consumer prices, both at stores and home delivered, were generally steady in Ohio and most of Wisconsin and Indiana. Out-of-store prices generally ranged higher than a month earlier in most Michigan and Illinois markets.

In the West North Central Region, dealers' Class I prices averaged $5.69 per hundredweight in early January 1968--unchanged from the November and December 1967 levels but 32 cents above January 1967. Consumer prices were mostly unchanged except in North Dakota where prices ranged from unchanged to 2 cents per quart higher for both out-of-store and home-delivered milk.

Class I prices paid by dealers in the South Atlantic Region for January 1968 averaged $6.74 per hundredweight--about the same as for December 1967 but 8 cents above January 1967. Consumer prices, both at stores and home delivered, generally declined from December 1967 levels in Huntington, West Virginia but were mostly unchanged for the rest of the South Atlantic region.

In the East South Central Region, dealer buying prices averaged $6.47 per hundredweight--unchanged since October 1967 but 25 cents above January 1967. Retail prices were mostly unchanged from December 1967 levels.

UNITED STATES DEPARTMENT OF AGRICULTURE
Statistical Reporting Service
Da 1-3 (1-68)
Crop Reporting Board
Washington, D. C.

West South Central Class I milk prices averaged $6.98 per hundredweight in early January--unchanged from December 1967 but 29 cents above January 1967. Consumer prices continued mostly unchanged from December levels except in Texas where both out-of-store and home-delivered prices ranged upward for most markets.

In the Mountain Region, dealers paid an average of $6.31 per hundredweight for Class I milk in early January 1968. This was unchanged from a month earlier and 2 cents above January 1967. Out-of-store and home-delivered milk prices continued unchanged except in the Albuquerque, New Mexico area where they averaged up to 3 cents per quart higher.

Dealers in the Pacific Region paid an average of $5.85 per hundredweight of Class I milk in early January. This was the same as for December 1967 but 23 cents above January 1967. Retail prices to consumers, both out-of-store and home-delivered were unchanged from December 1967.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Whole milk sales for 76 regulated marketing areas during October 1967 averaged 91.2 million pounds per day, down 3 percent from a year earlier. For the January through October 1967 period, average daily sales were down 3 percent from the same 10-month period in 1966. October 1967 daily sales of skim milk in 75 markets averaged 12 percent above a year earlier. Skim milk sales during the first 10 months of 1967 also averaged 12 percent above the same period for 1966.

Milk and cream mixture sales (mostly half and half) on a daily basis in 74 regulated areas averaged 5 percent less for October 1967 compared with a year earlier and 3 percent less than September 1967. Daily average sales for other cream products during October in 74 marketing areas were nearly 5 percent below a year earlier and 2 percent below September 1967.

Combined daily sales of all fluid milk products during October 1967 averaged 92.0 million pounds per day. This compares with 92.5 million pounds a year earlier and 93.8 million pounds per day during September 1967. Preliminary data for November 1967 sales of total fluid items averaged 92.8 million pounds per day -- 1 percent below a year earlier.

November receipts of milk from producers at regulated plants (74 marketing areas) averaged 129.3 million pounds per day--about 1 percent less than November 1966. Daily receipts per producer averaged 1,002 pounds during November 1967 compared with 964 pounds a year earlier.

December 1967 milk production in the United States was estimated at 9,304 million pounds--2 percent less than a year earlier and 5 percent below the 1961-65 average for the month. December milk output provided 1.50 pounds of milk per person daily, compared with 1.48 pounds a month earlier and 1.55 pounds a year earlier.

Preliminary estimates of monthly production for the year 1967 totaled 119,583 million pounds--down 1 percent from 1966 and 5 percent below the 1961-65 average.

a. Effective prices paid by dealers for milk used for fluid purposes -- packaged or bottled products. In classified markets, this use is usually called Class I. Prices paid for milk eligible for fluid use but in excess of Class I needs are not reflected in these averages. Table shows blend prices for selected marketing areas, paid to producers which represent usage in all classes. Effective prices in Federal and State order markets include negotiated premiums above minimum prices. A flat price, one price for all uses, is paid in a few unclassified markets. *Revised.

a. Prices are the latest reported during the first 10 days of each month. Grades may differ by market. b. New York Metropolitan -- New York City plus Nassau, Suffolk and Westchester counties all in the State of New York. c. In markets having a service charge on the first unit at each single delivery location, the charge has been divided between 2 quarts. Since the single quart concept used historically is based on every day delivery, it is assumed that under every other day delivery the charge represents a two-quart purchase.

S. From State sources. a. Federal Order markets unless otherwise noted. b. Prices paid to all or to the major group of producers in the market for milk used for fluid consumption. For Federal markets Class I prices including negotiated premiums. For minimum Class I prices, see Table 3 (a) for respective month. d. Prices paid to all or the major group of producers in each pool before applicable base and excess adjustments. Federal market prices include general premiums negotiated by principal producers' associations. Bulk tank see Table 3 (b), or other special premiums not included unless indicated. f. Weighted average of handlers' blend prices. j. Average of blend prices paid by all plants in the State. k. Milk Commission minimum price. m. Additional low bacteria count premium of 5¢ paid to all qualifying producers. n. Negotiated price paid members of principal producers' association. r. Mass.-R.I. 19¢; Connecticut 22¢; New York-New Jersey 21¢; Cincinnati 35¢; Columbus 30¢; Miami Valley 29¢; Central Ill.; Southern Ill.; St. Louis 15¢; Fort Wayne 26¢; Indianapolis 49¢; Ozarks 16¢; Sioux City 42¢; Nebr.-Western Iowa 44¢; Tri-State 33¢; Louisville-Lexington-Evansville 52¢; Paducah 54¢; Inland Empire 34¢. u. Based on negotiated blend price for 15¢ zone in Southern Michigan. v. Minimum Federal order blend price for plants supplied by principal producers' association. x. Producers' association blend price is below Federal order blend price because of re-pooling with milk sold outside this order. y. October blend at 4.0% basic test $7.01; at 3.5% $6.66. z. October: Sioux City-minimum $5.49, Lawton producer price-$5.53.

FLUID MILK AND CREAM REPORT

, 9
n34 M

FEBRUARY 1968

February 19, 1968

PRICES IN FLUID MARKETS

February prices paid by dealers for milk used for fluid purposes averaged $6.33 per hundredweight for 169 markets, according to the Crop Reporting Board. The February average was unchanged from January but 19 cents above a year earlier. By regions, dealers' prices ranged from 5 cents below a year earlier for New England to 33 cents above February 1967 in the West North Central area.

Store prices to consumers for the most common grade of whole milk sold in 25 cities averaged 51.4 cents per half gallon in early February. This was unchanged from January but 1 cent above February 1967. Home-delivered half gallons for the 25 cities averaged 57.5 cents in February--the same as January but nearly 1 cent above a year earlier.

New England: Dealers' Class I prices averaged $6.78 per hundredweight for February--unchanged from January but 5 cents below February 1967. Store and home-delivered milk prices to consumers were mostly unchanged from a month earlier.

Middle Atlantic: Class I milk prices averaged $6.64 per hundredweight in February--unchanged since September 1967 but 15 cents above a year earlier. Consumer prices in the region ranged from mostly unchanged to slightly lower.

East North Central: Dealers' prices for fluid-use milk averaged $5.88 per hundredweight in February--unchanged since October 1967 but 26 cents per hundredweight above February 1967. Consumer prices for milk purchased in stores and home-delivered were mostly steady.

West North Central: Dealers' Class I prices averaged $5.70 per hundredweight in early February--unchanged from the January 1968 revised level but 33 cents above February 1967.

Except for some changes in reported price ranges, consumer prices were mostly at January 1968 levels. The most significant change in the region was in the Fargo-Moorhead market where prices increased about $\frac{1}{2}$ cent per quart.

South Atlantic: Class I prices paid by dealers for February 1968 averaged $6.73 per hundredweight--about the same as for January but 7 cents above February 1967. Consumer prices held generally unchanged from January in the region. The most significant changes were increases of 1 to 3 cents per quart in the Huntington, W. Va. market.

SPECIAL IN THIS ISSUE

Annual receipts .....Page 26
Annual price summaries ..... Page 27-29

Several changes have been made in the monthly tables included in this report. The summary of home-delivery prices for 25 cities has been shifted from quarts to half gallons. Tables have been changed to show Federal-order minimum prices and premiums reported by producer associations in the same tables with prevailing prices. The table on plant receipts shows the number of producers, which can be used to compute average receipts per producer.

UNITED STATES DEPARTMENT OF AGRICULTURE
Statistical Reporting Service
Da 1-3 (2-68)
Crop Reporting Board
Washington, D. C.

East South Central: Dealer prices averaged $6.47 per hundredweight--unchanged since October 1967 but 29 cents above February 1967. Retail prices were mostly unchanged from January.

West South Central: Class I milk prices averaged $6.95 per hundredweight in early February--about the same as January but 28 cents above February 1967. Consumer prices continued mostly unchanged from January except in Houston and Lubbock, where both store and home-delivered prices were 1 to 2 cents per quart lower.

Mountain: Dealers paid an average of $6.33 per hundredweight for Class I milk in early February. This was 2 cents above January and 4 cents above February 1967. Retail prices continued mostly unchanged from January 1968.

Pacific: Dealers paid an average of $5.85 per hundredweight of Class I milk in early February--unchanged since December 1967 but 23 cents above February 1967. Retail prices to consumers were unchanged from January 1968.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: Preliminary data on sales of total fluid items for December 1967 in 74 marketing areas were about 2 percent below December 1966. During November 1967, combined sales of all fluid milk items averaged 93.2 million pounds per day. This is the same as a year earlier and compares with 92.0 million pounds per day during October 1967. During the first 11 months of 1967, sales were about the same as for the same period a year earlier.

Whole milk: Sales of whole milk in 76 regulated marketing areas during November 1967 averaged 91.5 million pounds per day--down 2 percent from a year earlier. For the January through November 1967 period, sales were down 3 percent from the same period in 1966.

Skim milk: November 1967 sales of skim milk and low fat items in 75 markets averaged 12 percent above a year earlier. During the first 11 months of 1967 sales also averaged 12 percent above the same period for 1966.

Milk and cream mixtures: Daily sales of mixtures (mostly half and half) in 74 regulated areas during November were 4 percent less than a year earlier but 3 percent more than a month earlier.

Cream items: Cream sales during November in 74 marketing areas were 2 percent below a year earlier.

Milk receipts: December 1967 receipts of milk from producers at regulated plants for 74 marketing areas averaged 132.9 million pounds per day--1 percent less than December 1966. The number of producers delivering milk to these plants in December was down 4 percent. Daily receipts per producer averaged 1,031 pounds during December 1967 compared with 1,003 pounds a year earlier.

Milk production: January 1967 milk production in the United States was estimated at 9,608 million pounds--2 percent less than a year earlier and 6 percent below the 1962-66 average. January output provided 1.55 pounds per person daily compared with 1.50 pounds a month earlier and 1.60 pounds a year earlier. Revised annual estimates of milk production for 1967 totaled 119.3 billion pounds--one-half percent less than 1966.

1/ Federal order market unless footnote indicates otherwise.
2/ Premium above Federal order minimum, as reported by principal producers' association.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Prices may be subject to quantity discounts.
6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.
7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.
8/ State-regulated minimum price to dealers.
9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.
10/ Unregulated market.
11/ Differential for January.
12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).
13/ Pittsburgh price on butterfat-skim milk basis ($0.836 per pound fat; $3.60 per hundredweight skim).
14/ State-regulated minimum price prevails over Federal order minimum.
15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.
16/ Price per quart: Mar.-June 28½¢, Aug.-Nov. 29¢, Dec. 1967 and Jan. 1968, 29½¢. Per half gallon: July-Nov. 52½¢; Dec. 1967 and Jan. 1968, 53½¢. Per gallon: July-Nov. 106¢; Dec. 1967 and Jan. 1968, 108¢.
17/ January price same as February.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in ( ).
2/ Premium (above Federal order minimum) as reported by principal producers' association.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Blend price reported by principal producers' association, including the effect of prevailing premiums. Weighted average of prices for base and excess milk, where such plans are in effect.
6/ State-regulated market.
7/ Unregulated market.
8/ The following changes have been made for fall production fund added:

Cincinnati	23¢	Indianapolis	46¢	St. Louis	14¢
Columbus	20¢	Central Ill.	14¢	Ozarks	16¢
Miami Valley	20¢	Southern Ill.	14¢	Tri State	22¢
Lou.-Lex.-Evns.	53¢				
Paducah	52¢				

9/ Based on prevailing blend price for 15-cent zone in Southern Michigan.
10/ Average price for plants supplied by principal producers' association.
11/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order.
12/ State-regulated minimum prices at basic test of 4% for South Carolina and Louisiana adjusted to 3.5% fat.
13/ November blend for 3.5% milk $6.54, fat differential $.070.
14/ State-regulated minimum price prevails over Federal order minimum.

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA from reports by market administrators. Data for State-regulated markets compiled by milk control agency. Data are revised for the year earlier, preliminary for the latest year shown. Data adjusted to a comparable basis where marketing areas have been changed.

2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed on page 30.

3/ Federal totals less State data on receipts from New Jersey or Mississippi producers where applicable.

4/ Data from State sources.

5/ Receipts for marketing area as defined prior to 1967 amendment.

6/ Data from Federal and State sources.

FLUID MILK AND CREAM REPORT

1.9
M34M
copy 2

MARCH 1968

March 19, 1968

PRICES IN FLUID MARKETS

March prices paid by dealers for milk used for fluid purposes averaged $6.33 per hundredweight for 170 markets, according to the Crop Reporting Board. The March average was unchanged from January and February but 31 cents above a year earlier. Regional averages of dealers' prices ranged from 7 to 62 cents above March 1967 levels.

Store prices to consumers for the most common grade of whole milk sold in 25 cities averaged 51.7 cents per half gallon in early March. This was about the same as for February but more than 1 cent above March 1967. Home-delivered half gallons for the 25 cities averaged 57.9 cents in March -- up slightly from February and more than 1 cent above a year earlier.

New England: Dealers' Class I prices averaged $6.78 per hundredweight for March--unchanged since January 1968 but 17 cents above March 1967. Store and home-delivered milk prices to consumers were mostly unchanged from a month earlier.

Middle Atlantic: Class I milk prices averaged $6.64 for March -- unchanged since September 1967 but 27 cents per hundredweight above March 1967. Consumer prices for milk purchased in stores and home-delivered held steady in most markets compared with February 1968 levels.

East North Central: Dealers' prices for fluid-use milk averaged $5.88 per hundredweight in March -- unchanged since October 1967 but 38 cents per hundredweight above March 1967. Except for some changes in reported price ranges, consumer prices were mostly at February 1968 levels. The most significant changes were prices at stores in the South Bend, Ind. market where prices generally dropped 1 to 4 cents per quart.

West North Central: Dealers' Class I prices averaged $5.70 per hundredweight in early March -- unchanged since January 1968 but 49 cents above March 1967. Store and home-delivered milk prices to consumers were mostly unchanged from February 1968.

South Atlantic: Class I milk prices paid by dealers for March 1968 averaged $6.72 per hundredweight -- about the same as February but 7 cents above March 1967. Consumer prices held generally unchanged from February.

East South Central: Dealer prices in March averaged $6.44 per hundredweight -- down slightly from a month earlier but 37 cents above March 1967. Consumer prices were mostly unchanged from February.

SPECIAL IN THIS ISSUE
Annual Sales by Products ..... Pages 26-30

UNITED STATES DEPARTMENT OF AGRICULTURE
Statistical Reporting Service
Crop Reporting Board
Da 1-3 (3-68)
Washington, D. C.

West South Central: Class I milk prices averaged $6.95 per hundredweight in early March -- about the same as January and February 1968 but 62 cents above March 1967. The 34-cent seasonal drop between February and March 1967 was not repeated in 1968. Consumer prices continued mostly unchanged from February.

Mountain: Dealers paid an average of $6.33 per hundredweight in early March -- the same as February. Dealer prices for milk used in fluid products averaged 18 cents above March 1967. Prices to consumers, both at stores and home-delivered, continued unchanged from February.

Pacific: Dealers paid an average of $5.85 per hundredweight of Class I milk in early March -- unchanged since December 1967 but 24 cents above March 1967. Except for some changes in reported price ranges, consumer prices were mostly at February 1968 levels.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: Preliminary data on sales of total fluid items for January 1968 in 76 marketing areas were about 2 percent above January 1967. During December 1967, combined sales of all fluid milk items averaged 93 million pounds per day. This was 2 percent below a year earlier and compares with 93 million pounds per day during November 1967. For the calendar year of 1967, sales were about the same as for 1966.

Whole milk: Sales of whole milk in 76 regulated marketing areas during December 1967 averaged 88.4 million pounds per day -- down 4 percent from a year earlier. For January through December 1967, sales were down 3 percent from 1966.

Skim milk: December 1967 sales of low fat and skim milk items in 75 markets averaged 10 percent above a year earlier. Skim milk sales for all of 1967 averaged 12 percent above 1966.

Milk and cream mixtures: Daily sales of mixtures (most half-and-half) in 74 regulated areas during December 1967 were 7 percent less than a year earlier but 2 percent more than a month earlier.

Cream items: Cream sales during December 1967 in 74 marketing areas were 5 percent below a year earlier.

Milk receipts: January 1968 receipts of milk from producers at regulated plants for 80 marketing areas averaged 152.5 million pounds per day -- 1 percent less than January 1967. The number of producers delivering milk to these plants during January was down 3 percent from a year earlier.

Milk production: February 1968 milk production in the United States was estimated at 9,249 million pounds, only slightly above a year earlier. The increase resulted from the extra day in February this year. On a daily average basis, February production was 3 percent below a year earlier. February 1968 output provided 1.59 pounds per person daily compared with 1.55 pounds a month earlier and 1.66 pounds a year earlier.

Annual Sales: Plain whole milk sales in 1967 were 3 percent less than 1966 sales. Low-fat (2%) sales in 1967 were more than 25 percent larger than in 1966. Sales of skim milk products other than 2 percent increased 1 percent over 1966. Sales of light and heavy cream were down in 1967 while sales of sour cream continued to trend upward.

1/ Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.
2/ Revised.

1/ Federal order market unless footnote indicates otherwise.
2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Prices may be subject to quantity discounts.
6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.
7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.
8/ State-regulated minimum price to dealers.
9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.
10/ Unregulated market.
11/ Differential for February.
12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).
13/ Pittsburgh price on butterfat-skim milk basis ($0.836 per pound fat; $3.60 per hundredweight skim).
14/ State-regulated minimum price prevails over Federal order minimum.
15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.
16/ January and February price same as March.
17/ Negotiated Class I February same as March.
18/ Negotiated Class I January and February same as March.
19/ Class I Concord Dec. 1967 through Feb. 1968 $6.72; Manchester Dec. 1967 through Feb. 1968 $6.73; Nashua Dec. 1967 through Feb. 1968 $6.75.
20/ May 1967 through Feb. 1968 same price as March 1968.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in ( ).
2/ Premium (above Federal order minimum) as reported by principal producers' association. May not apply to all Class I or all pooled milk.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Blend price reported by principal producers' association, including the effect of prevailing premiums. Weighted average of prices for base and excess milk, where such plans are in effect.
6/ State-regulated market.
7/ Unregulated market.
8/ The following changes have been made for fall production fund added: Paducah 52¢.
9/ Based on prevailing blend price for 15-cent zone in Southern Michigan.
10/ Average price for plants supplied by principal producers' association.
11/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order.
12/ State-regulated minimum prices at basic test of 4% for South Carolina and Louisiana adjusted to 3.5% fat.
13/ December blend for 3.5% milk $6.34 fat differential $.070.
14/ State-regulated minimum price prevails over Federal order minimum.
15/ December 1967 premium and Class I price same as January 1968. December prevailing producer price $6.33.

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA, from reports by market administrators.
Data for State-regulated markets compiled by milk control agencies. Data are revised for the year-earlier month, preliminary for the last 2 months shown; all months adjusted to a comparable basis where marketing areas have been changed.

2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed on page 31.

3/ Data from State milk control agency.

4/ Delaware Valley less sales in New Jersey as reported by N. J. Office of Milk Industry.

5/ Excludes sales in Mississippi portion of Memphis marketing area.

6/ Data from Federal and State sources.

7/ Average fat test for markets where milkfat totals are available.

Table 8.--Average daily receipts of milk from producers and number of producers for plants under Federal or State regulation, by market, January 1968 1/

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA from reports by market administrators. Data for State-regulated markets compiled by milk control agencies. Data are revised for the year-earlier month, preliminary for the last 2 months shown.
2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed on page 31.
3/ Federal totals less State data on receipts from New Jersey or Mississippi producers where applicable.
4/ Data from State sources.
5/ Data from Federal and State sources.
6/ Estimated.

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA, from reports by market administrators. Data for State-regulated markets compiled by milk-control agencies. Data are revised for 1966, preliminary for 1967; adjusted to a comparable basis for the two years where marketing areas have been changed significantly. 2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed on page 31. 3/ Data from State milk control agency. 4/ Delaware Valley less sales in New Jersey reported by N.J. Office of Milk Industry. 5/ Excludes sales in Mississippi portion of Memphis marketing area. 6/ Data from Federal and State sources. 7/ Number of areas for which data are available varies for items on each page. Average fat test is for markets where milkfat totals are available. 8/ Yogurt data not shown separately or included in group totals for the following markets where individual operations might be disclosed: Duluth-Superior, Des Moines, Wichita, Washington, Appalachian (1967), southeastern Florida, Tampa Bay, Louisville-Lexington-Evansville, Nashville (1967), Knoxville, central Arkansas, central west Texas, Corpus Christi, Lubbock-Plainview, San Antonio, Texas Panhandle, Rio Grande Valley, central Arizona and Inland Empire. 9/ Includes whole lactic milk and creamed buttermilk. 10/ Includes whole-milk equivalent of concentrated milk. 11/ Totals include average daily yogurt sales of 2,813 pounds in 1966 and 3,501 pounds in 1967 for 19 markets not included above (markets listed in footnote 8). 12/ 2% milk included with skim milk (solids added) for the following markets: Rochester, southeastern Florida (1967), Lubbock-Plainview and Texas Panhandle (1967). 13/ Plain 2% milk included with 2% milk (solids added) for the following markets: Duluth-Superior (1967), Sioux City, Washington (1967), Knoxville, Memphis, New Orleans (1967), northern Louisiana (1966), Red River Valley (1967), central west Texas (1967), Corpus Christi, north Texas (1967) and central Arizona.

(Footnotes continued on page 31)

MARKETS COMBINED IN SALES AND RECEIPTS TABLES

The following markets have been combined in sales and receipts tables of this report; Ohio-Cincinnati, Columbus, Miami Valley, Northeastern, Northwestern and Youngstown-Warren; Indiana-Fort Wayne, Indianapolis and Northwestern Indiana; Illinois-Central Illinois, Rock River Valley and Southern Illinois; Michigan-Upper Peninsula, Southern and Upstate; Wisconsin-Madison, Northeastern and Milwaukee; Minnesota-Duluth-Superior and Minneapolis-St. Paul; Iowa-Cedar Rapids, Des Moines, North Central, Quad Cities-Dubuque and Sioux City; Missouri-Kansas City, Ozarks and St. Louis; South Dakota-Black Hills and Eastern; Kansas-Neosho Valley and Wichita; West Virginia-Appalachian, Clarksburg, Tri State and Wheeling; Florida-Southeastern Florida and Tampa Bay; Upper Florida (receipts); Two Kentucky-Indiana areas-Louisville-Lexington-Evansville and Paducah; Tennessee-Chattanooga, Knoxville, Memphis and Nashville; Mississippi-Mississippi, Gulf Coast (S), Northeast (S) and Southwest (S); Arkansas-Central and Ft. Smith; Louisiana-New Orleans and Northern; Texas-Austin-Waco, Central West, Corpus Christi, Lubbock-Plainview, North Texas, Panhandle and San Antonio; Colorado-Eastern and Western; and Washington-Inland Empire and Puget Sound.

Footnotes continued from page 30.

14/ Flavored milk drinks included with skim milk (solids added) for the following markets: Duluth-Superior, Memphis (1967), northern Louisiana, Oklahoma Metropolitan, north Texas (1967), Rio Grande Valley and Inland Empire. 15/ 2% milk (solids added) included with plain 2% milk for the following markets: Knoxville (1967) and Rio Grande Valley (1956). 16/ Plain skim milk included with skim milk (solids added) for the following markets: Sioux City (1967), eastern South Dakota, Black Hills, central Arkansas, northern Louisiana (1967), Austin-Waco, central west Texas, Lubbock-Plainview, San Antonio and Texas Panhandle (1966). 17/ Eggnog included with milk and cream mixtures for the following markets: Duluth-Superior, eastern South Dakota, Austin-Waco and Lubbock-Plainview. 18/ Light cream included with heavy cream for the following markets: Duluth-Superior, Sioux City, Black Hills, Knoxville, central Arkansas, Oklahoma Metropolitan (1967), Red River Valley, Austin-Waco, central west Texas, Corpus Christi, Lubbock-Plainview, San Antonio, Texas Panhandle (1966), central Arizona, and Inland Empire (1967). 19/ Sour cream included with heavy cream for the following markets: Upper Chesapeake Bay (1967), central west Texas, Lubbock-Plainview, San Antonio.

FLUID MILK AND CREAM REPORT

APRIL 1968

U.S. DEPT. OF AGRICULTURE
NATIONAL AGRICULTURAL LIBRARY
MAY 1968
CURRENT SERIAL RECORDS

April 19, 1968

PRICES IN FLUID MARKETS

April prices paid by dealers for milk used for fluid purposes averaged $6.33 per hundredweight for 170 markets, according to the Crop Reporting Board. The average price has held unchanged since December 1967, but was 31 cents above a year earlier. Regional averages ranged from 17 to 39 cents above April 1967 levels.

Store prices to consumers for the most common grade of whole milk sold in 25 cities averaged 51.9 cents per half gallon in early April. This was slightly above March and more than one and one-half cents above April 1967. Home-delivered half gallons for the 25 cities averaged 57.9 cents in April--the same as March and nearly one and one-half cents above a year earlier.

New England: Dealers' Class I prices averaged $6.78 per hundredweight for April--unchanged since December 1967 but 17 cents above April 1967. Store and home-delivered milk prices to consumers were generally unchanged from a month earlier for the area.

Middle Atlantic: Class I milk prices averaged $6.64 for April--unchanged since September 1967 but 34 cents per hundredweight above April 1967. Consumer prices for milk purchased in stores and home-delivered continued steady in most markets compared with February and March 1968 levels.

East North Central: Dealers' prices for fluid-use milk averaged $5.88 per hundredweight in April--unchanged since October 1967 but 39 cents per hundredweight above April 1967. Except for changes in reported price ranges, out-of-store prices continued at March 1968 levels. Home-delivered prices were unchanged from March except for Green Bay, Wisconsin where prices were reported 2 cents per quart lower and Evansville, Indiana where prices advanced nearly 2 cents per quart from March.

West North Central: Dealers' Class I prices averaged $5.70 per hundredweight in early April--unchanged since January 1968 but 37 cents above April 1967. Store and home-delivered milk prices to consumers were mostly unchanged from March 1968. The most significant changes were 1 cent per quart increases in Minneapolis-St. Paul and Winona, Minnesota markets.

South Atlantic: Class I milk prices paid by dealers during early April 1968 averaged $6.72 per hundredweight--the same as March but 21 cents above April 1967. Consumer prices held mostly unchanged from March.

East South Central: Dealer prices in April averaged $6.44 per hundredweight--the same as a month earlier but 19 cents above March 1967. Consumer prices were mostly unchanged from March.

Da 1-3 (4-68)
Crop Reporting Board
Washington, D. C.

West South Central: Class I milk prices averaged $6.95 per hundredweight in early April--the same as March but 37 cents above April 1967. Except for some changes in reported price ranges, consumer prices were mostly at March 1968 levels.

Mountain: Dealers paid an average of $6.31 per hundredweight in early April--down 2 cents from March but 19 cents above April 1967. Prices to consumers, both at stores and home-delivered, were mostly unchanged from March.

Pacific: Dealers paid an average of $5.85 per hundredweight of Class I milk in early April--unchanged since December 1967 but 24 cents above April 1967. Consumer prices were mostly at March 1968 levels.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: Preliminary data on sales of total fluid items for February 1968 in 76 marketing areas were about 1 percent above February 1967 on a daily average basis. During January 1968, combined sales of all fluid items averaged nearly 97 million pounds per day. This was 4 percent above December 1967 and 2 percent above January 1967.

Whole milk: Sales of whole milk in 76 regulated marketing areas during January 1968 averaged 94.7 million pounds per day--about the same as year earlier.

Low-fat and skim milk: January 1968 sales of low-fat and skim milk items in 77 markets averaged 16 percent above a year earlier.

Milk and cream mixtures: Daily sales of mixtures (mostly half and half) in 76 regulated areas during January 1968 were 3 percent less than a year earlier.

Cream items: Cream sales during January 1968 in 76 marketing areas were 4 percent below a year earlier.

Milk receipts: February 1968 receipts of milk from producers at regulated plants for 80 marketing areas averaged 156.1 million pounds per day--1 percent less than February 1967. With the extra day in February 1968, total receipts for the month were up about 3 percent from a year earlier.

Milk production: March 1968 milk production in the United States was estimated at 10,269 million pounds--down 2 percent from a year earlier. March 1968 output provided 1.65 pounds per person daily compared with 1.71 pounds a year earlier.

CONSUMPTION OF FLUID MILK AND CREAM IN THE UNITED STATES, 1967

Total sales of fluid milk and cream in the United States in 1967 are estimated at 54.3 billion pounds of whole milk equivalent, 2 percent below the 1966 total. Annual sales averaged 281 pounds per capita in 1967--down 9 pounds from 1966. Total consumption of milk and cream (sales plus household consumption on farms where produced) totaled 57.2 billion pounds, with an average of 289 pounds per capita, down 10 pounds from 1966. These consumption estimates are expressed in whole milk equivalent--the quantity of whole milk, as produced--which is required to provide the milk fat used in all fluid products.

1/ Regional and U. S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.

1/ Federal order market unless footnote indicates otherwise.
2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Prices may be subject to quantity discounts.
6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.
7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.
8/ State-regulated minimum price to dealers.
9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.
10/ Unregulated market.
11/ Differential for February.
12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).
13/ Pittsburgh price on butterfat-skim milk basis ($0.836 per pound fat; $3.60 per hundredweight skim).
14/ State-regulated minimum price prevails over Federal order minimum.
15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in ( ).
2/ Premium (above Federal order minimum) as reported by principal producers' association. May not apply to all Class I or all pooled milk.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Blend price reported by principal producers' association, including the effect of prevailing premiums. Weighted average of prices for base and excess milk, where such plans are in effect.
6/ State-regulated market.
7/ Unregulated market.
8/ The following changes have been made for fall production fund: No changes.
9/ Based on prevailing blend price for 15-cent zone in Southern Michigan.
10/ Average price for plants supplied by principal producers' association.
11/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order.
12/ State-regulated minimum prices at basic test of 4% for South Carolina and Louisiana adjusted to 3.5% fat.
13/ January price same as February.
14/ State-regulated minimum price prevails over Federal order minimum.

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA, from reports by market administrators. Data for State-regulated markets compiled by milk control agencies. Data are revised for the year-earlier month, preliminary for the last 2 months shown; all months adjusted to a comparable basis where marketing areas have been changed. 2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed on page 27. 3/ Data from State milk control agency. 4/ Delaware Valley less sales in New Jersey as reported by N. J. Office of Milk Industry. 5/ Excludes sales in Mississippi portion of Memphis marketing area. 6/ Data from Federal and State sources. 7/ Average fat test for markets where milkfat totals are available. 8/ January 1968 and 1967 are comparable. December data are for marketing area prior to expansion December 1, 1967.

FLUID MILK AND CREAM REPORT

MAY 1968

U.S. DEPT. OF AGRICULTURE
NATIONAL AGRICULTURAL LIBRARY

May 20, 1968

PRICES IN FLUID MARKETS

May prices paid by dealers for milk used for fluid purposes increased 15 cents over April 1968 and averaged $6.48 per hundredweight for 170 markets, according to the Crop Reporting Board. This was the first change in the 170 market average since December 1967. The increase was due to the 28 cent increase in the basic minimum price in all Federal milk orders except the three in Florida. The increase was limited to 15 cents as a number of markets made a downward adjustment in their premiums over Class I Federal order minimums and several State controlled markets held their prices at April levels. By regions, price increases over April ranged from 1 cent for the East North Central and Pacific regions to 28 cents for New England. The 170 market average for May 1968 was 37 cents higher than a year earlier. Increases ranged from 14 cents in the South Atlantic region to 64 cents in the West North Central and West South Central regions.

Store prices to consumers for the most common grade of whole milk sold in 25 cities averaged 52.0 cents per half gallon in early May. This was 1 cent above April and nearly 1.5 cents above May 1967. Home-delivered half gallons for the 25 cities averaged 58.3 cents in May -- up nearly ½ cent from April and over 1.5 cents above a year earlier.

New England: Dealers' Class I prices averaged $7.06 per hundredweight for early May -- up 28 cents from April and 25 cents above May 1967. Store and home-delivered milk prices to consumers were generally ½ to 1 cent per quart higher than in April.

Middle Atlantic: Class I milk prices averaged $6.90 per hundredweight for May -- up 25 cents from April and 46 cents over May 1967. Consumer prices for milk purchased in stores and home-delivered were ½ to 1 cent per quart higher than April in most markets.

East North Central: Dealers' prices for fluid-use milk averaged $5.89 per hundredweight in early May -- nearly the same as for April as most markets lowered their prevailing Class I premiums and held dealer prices unchanged. Except for changes in reported price ranges, out-of-store prices continued at April 1967 levels. Home-delivered prices were unchanged in most markets. The most significant change in home-delivered prices was a 2 cent per quart increase in Green Bay, Wisconsin.

SPECIAL IN THIS ISSUE

Fluid Milk and Cream Consumption including per capita, 1966-67 -- Pages 30-47

UNITED STATES DEPARTMENT OF AGRICULTURE
Statistical Reporting Service
Da 1-3 (5-68)
Crop Reporting Board
Washington, D. C.

West North Central: Dealers' Class I prices averaged $5.98 per hundredweight in early May -- up 24 cents from April as nearly all markets reported 28 cent increases. The Class I price was 64 cents above May 1967. Store and home-delivered milk prices to consumers were mostly steady to 1 cent per quart higher.

South Atlantic: Class I milk prices paid by dealers during early May 1968 averaged $6.87 per hundredweight -- up 15 cents from a month earlier. Georgia, North Carolina, South Carolina, West Virginia and Virginia held prices unchanged. Home-delivered milk prices were unchanged in most markets. The most significant changes in store prices were 1 to 2 cent per quart increases in Maryland and the metropolitan area of the District of Columbia.

East South Central: Dealer prices in May averaged $6.57 per hundredweight -- up 13 cents from April 1968 and 31 cents above May 1967. Alabama, Mississippi and parts of Tennessee held prices at April levels. Consumer prices were mostly unchanged from April except for a 1 cent per quart increase in Lexington, Kentucky.

West South Central: Class I milk prices averaged $7.20 per hundredweight in early May -- up 25 cents from April and 64 cents above May 1967. Consumers' prices ranged from unchanged to 1 cent per quart higher than April.

Mountain: Dealers paid an average of $6.58 per hundredweight for fluid-use milk in early May -- up 27 cents from April and 39 cents above May 1967. Prices to consumers, both at stores and home-delivered, were mostly unchanged from April except in New Mexico and Arizona where prices advanced from $\frac{1}{2}$ to 1 cent per quart.

Pacific: Dealers paid an average of $5.86 per hundredweight for Class I milk in early May -- up only 1 cent from April but 24 cents above May 1967. Consumer prices were unchanged from April.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: Preliminary data on sales of total fluid items for March 1968 in 76 marketing areas were less than 1 percent above March 1967 on a daily average basis. During February 1968, combined sales of all fluid items averaged over 97 million pounds per day -- nearly 1 percent above February 1967.

Whole milk: Sales of whole milk in 78 regulated marketing areas during February averaged 94.3 million pounds per day -- about 2 percent less than a year earlier.

Low-fat and skim milk: February sales of low-fat and skim milk items in 77 markets averaged nearly 15 percent above a year earlier.

Milk and cream mixtures: Daily sales of milk and cream mixtures (mostly half and half) in 76 regulated markets during February were 3 percent less than a year earlier.

Cream items: Cream sales during February in 76 marketing areas were 1 percent below a year earlier.

Milk receipts: March receipts of milk, from producers at regulated plants, for 80 marketing areas averaged 160.1 million pounds per day -- up 1.5 percent from a year earlier.

Milk production: April milk production in the United States was estimated at 10,460 million pounds -- down 3 percent from a year earlier. April output provided 1.74 pounds of milk per person daily compared with 1.80 pounds a year earlier.

FLUID MILK AND CREAM CONSUMPTION BY MARKETING AREAS, 1966 and 1967

Sales and per capita consumption data are shown for marketing areas where comparable data are available for 1966 and 1967. These data continue the series published in Statistical Bulletin No. 312 in May 1962 and in May issues of the Fluid Milk and Cream Report for 1962 through 1967. Data for 1966 are, in some cases, revised from those published a year ago; data for 1967 are preliminary. The per capita estimates are derived data, and therefore are not precise measurements of levels of consumption. Sales data for each specific area were reported primarily for regulatory purposes. For some areas, sales by producer-distributors exempt from regulation are not included in the totals. However, data for each area are comparable from year to year unless footnotes indicate otherwise.

The 73 marketing areas for which comparable sales data are available for 1966 and 1967 have an estimated 1967 population of about 128 million people. This represents about 65 percent of the total population using purchased milk.

Whole milk products:

Of the 73 market areas with comparable data for both years, 1967 per capita consumption of whole milk products was lower in 66 areas. Consumption per person was the same as in 1966 in 2 areas and higher in 5 areas. The consumption rate dropped 10 pounds or more from 1966 in 37 market areas. Increases were less than 10 pounds in the 5 areas having higher per person consumption.

Low-fat and skim milk products:

Per capita consumption of low-fat (2%) and skim milk products in 1967 was higher than in 1966 in 60 areas and lower in 6 of the 73. Increases of 10 or more pounds were indicated in 10 of the 73 areas and 6 areas reported decreases--none of them as much as 10 pounds below 1966.

Milk equivalent of cream:

The milk equivalent of cream sold during 1967 was below a year earlier in 58 of the areas for which data are available. (Milk equivalent is the quantity of milk, as produced, which is required to furnish the milkfat in the products sold.) Fluid cream products include mixtures of milk and cream, eggnog, and various fat concentrations of sweet and sour cream. Consumption of cream products in milk equivalent terms in 1967 was about the same as in 1966 in 14 areas, up slightly in only 1 area.

Milk equivalent of all fluid products:

Total fluid products sales in milk equivalent terms during 1967 were lower than in 1966 in 63 areas, unchanged in 2 market areas and higher in 8. Increases of 10 or more pounds per person were recorded in only 1 area but decreases of 10 or more pounds occurred in 35 areas.

Sales Data:

Sales data for 1967 are included for 73 marketing areas--65 Federal order areas as provided by Federal order administrators and 8 areas under State regulation. The following agencies provided State sales data: Niagara Frontier and Rochester-New York Division of Milk Control, State Department of Agriculture and Markets; New Jersey--Office of Milk Industry, State Department of Agriculture; North Carolina--State Milk Commission; South Carolina--State Dairy Commission; Mississippi--State Milk Commission and cooperating Federal order administrators; California--Crop and Livestock Reporting Service.

Population Data:

Population estimates for marketing areas which cover parts of States are based on trends in the latest available population estimates for counties and other local areas. Annual population estimates are available by counties from various State and local agencies and from U. S. Census Bureau estimates for standard metropolitan statistical areas. For marketing areas which cover entire States, population estimates are based on Current Population Reports issued by the U. S. Census Bureau. All population estimates are adjusted to a July 1 date to approximate the annual average.

United States	170	6.11	6.33	4.50-7.81	6.48

1/ Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 5.
2/ Revised.

1/ Federal order market unless footnote indicates otherwise.
2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Prices may be subject to quantity discounts.
6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.
7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.
8/ State-regulated minimum price to dealers.
9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.
10/ Unregulated market.
11/ Differential for April.
12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).
13/ Pittsburgh price on butterfat-skim milk basis ($0.836 per pound fat; $3.60 per hundredweight skim).
14/ State-regulated minimum price prevails over Federal order minimum.
15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.
16/ Effective April 15, Class I 6.67, Harrisburg, $6.60 Johnstown $6.68 Reading; effective April 8 weighted average $5.74 Minneapalis.
g/ Glass container.
p/ Paper container.
P/ Plastic container.
17/ Jan.-Apr. price same as May.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in ( ).
2/ Premium (above Federal order minimum) as reported by principal producers' association. May not apply to all Class I or all pooled milk.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Blend price reported by principal producers' association, including the effect of prevailing premiums. Weighted average of prices for base and excess milk, where such plans are in effect.
6/ State-regulated market.
7/ Unregulated market.
8/ The following changes have been made for fall production fund: Subtracted: Central Illinois, Eastern South Dakota, Ozarks, St. Louis, Southern Illinois 15¢, Massachusetts, New York 10¢, Connecticut 20¢.
9/ Based on prevailing blend price for 15-cent zone in Southern Michigan.
10/ Average price for plants supplied by principal producers' association.
11/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order.
12/ State-regulated minimum prices at basic test of 4% for South Carolina and Louisiana adjusted to 3.5% fat.
13/ State-regulated minimum price prevails over Federal order minimum.

Footnotes for Table 9

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA, from reports by market administrators. Data are revised for 1966, preliminary for 1967; adjusted to a comparable basis for the two years where marketing areas have been changed significantly.
2/ Federal order market unless footnote indicates otherwise.
3/ Quantities sold and per capita consumption within the defined Federal Order marketing area or other specified geographic area.
4/ Milk equivalent data represent the quantity of producer milk at average test required to provide the milkfat in the respective product groupings.
5/ Data for marketing area prior to expansion in 1967.
6/ Data from State milk control agency.
7/ Delaware Valley sales include Southern New Jersey which are also included in New Jersey totals.
8/ Data for marketing area after expansion in 1967(Market name changed from Suburban St. Louis).
9/ Data for marketing area after merger and expansion in 1966.
10/ Data for marketing area after expansion in 1966.
11/ Population and the resulting per capita rates revised for 1965. (see page 46.)
12/ Data comparable both years for new market effective 1/1/66.
13/ Data from Federal and State sources.
14/ Not reported where individual plant data might be disclosed.
15/ Low-fat (2%)(plain) included with low-fat (2%) milk (solids added).
16/ Skim milk (flavored) included with skim milk (solids added).
17/ Skim milk (plain) included with skim milk (solids added).
18/ Low-fat (2%)(plain) included with skim milk (solids added).
19/ Low-fat (2%)(solids added) included with low-fat (2%) milk (plain).
20/ Low-fat (2%)(plain and solids added) both included with skim milk (solids added).
21/ Skim milk (plain) and skim milk (flavored) included with skim milk (solids added).
22/ Eggnog included in mixtures.
23/ Sour cream included in heavy cream.
24/ Light cream included in heavy cream.
25/ Sour cream and light cream included in heavy cream.
26/ Yogurt included in whole milk.
27/ Includes fluid milk equivalent of concentrated milk.
28/ Pastry cream included in eggnog and table cream included in light cream.
29/ Skim milk (solids added) included with skim milk (plain).
30/ Flavored whole milk included with flavored skim milk.
31/ Light cream included with sour cream.

FLUID MILK AND CREAM REPORT

9
34M
Fy2

JUNE 1968

June 18, 1968

PRICES IN FLUID MARKETS

June prices paid by dealers for milk used for fluid purposes (Class I prices) averaged $6.50 per hundredweight for 170 markets, according to the Crop Reporting Board. This was unchanged from the revised average for May 1968 but 33 cents above a year earlier. Regional averages for June ranged from 13 to 64 cents above June 1967.

Store prices to consumers for the most common grade of whole milk in 25 cities averaged 52.3 cents per half gallon in early June. This was slightly above a month earlier but nearly 2 cents above June 1967. Home-delivered half gallons for the 25 cities averaged 58.8 cents in June--up nearly ½ cent from May and more than 1½ cents above a year earlier.

New England: Dealers' Class I prices averaged $7.06 per hundredweight for early June--unchanged from May but 26 cents above June 1967. Store and home-delivered prices to consumers were generally held at May levels in this region.

Middle Atlantic: Class I milk prices averaged $6.90 per hundredweight for June--unchanged from May but 28 cents above June 1967. Except for changes in reported price ranges, out-of-store and home-delivered prices continued at May levels.

East North Central: Dealers' prices for fluid-use milk averaged $5.97 per hundredweight in early June--up 3 cents from the revised May average and 39 cents above June 1967. The May dealer price was adjusted late in the month for several markets, restoring part of the premiums which had been lowered in early May. Consumer prices were mostly unchanged from May although price ranges changed in several markets. The Milwaukee, Wisconsin market had a general 1-cent per quart increase for both out-of-store sales and home-delivered milk. Madison, Wisconsin home-delivered prices held steady but price-war conditions were reported for out-of-store sales.

West North Central: Dealers' Class I prices averaged $5.98 per hundredweight in early June--unchanged from May but 59 cents above June 1967. Store and home-delivered prices to consumers were mostly steady although price ranges were narrowed in several markets.

South Atlantic: Class I milk prices paid by dealers during early June averaged $6.86 per hundredweight--about the same as May but 13 cents above June 1967. Consumer prices out-of-stores and home-delivered were mostly unchanged from May in the region. The most significant changes were for home-delivered milk in Baltimore, Maryland and in the Washington, D. C. metropolitan area where prices increased ½ to 1 cent per quart.

UNITED STATES DEPARTMENT OF AGRICULTURE
Statistical Reporting Service
Crop Reporting Board
Da 1-3 (6-68)
Washington, D. C.

East South Central: Dealer prices in June averaged $6.57 per hundredweight--unchanged from May but 33 cents above June 1967. Store and home-delivered prices to consumers generally held at May 1968 levels.

West South Central: Class I milk prices averaged $7.20 per hundredweight in early June--unchanged from May but 64 cents above June 1967. The most significant consumer price changes from May in the region were reported in Abilene and Lubbock, Texas, where prices increased 1 to 2 cents per quart.

Mountain: Dealers paid an average of $6.59 per hundredweight for fluid-use milk in early June--up only 1 cent from May but 41 cents above June 1967. Consumer prices, both at stores and home-delivered were mostly unchanged from May except in Albuquerque, New Mexico where prices advanced 1 cent per quart and Colorado Springs, Colorado where prices dropped 1 to 2 cents per quart.

Pacific: Dealers paid an average of $5.86 per hundredweight for Class I milk in early June--unchanged from May but 23 cents above June 1967. Consumer prices were unchanged in California and parts of Washington and Oregon. The most significant changes in this region were 1-cent per quart increases in Bremerton, Washington and increases of 1 to 2 cents in home-delivered milk for most of the Portland and Salem, Oregon markets.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: Preliminary data for April on total sales of fluid items in 76 marketing areas averaged about 2 percent more than a year earlier. The increase was partly because of 4 Sundays in April this year, compared with 5 Sundays in April 1967. For March, total fluid sales were about the same as a year earlier.

Whole milk: Sales of whole milk in 78 marketing areas during March were 2 percent below a year earlier.

Low-fat and skim milk: Sales of low-fat and skim milk items in 77 areas continued to make strong gains in March, averaging 14 percent above a year earlier.

Milk and cream mixtures: Sales of mixtures (mostly half and half) in 76 areas were down 6 percent from March 1967.

Cream items: March cream sales in 76 areas were 9 percent below a year earlier. Heavy consumption of cream at Easter occurred in March last year and in April this year.

Milk receipts: April receipts of milk from producers at plants regulated for 80 marketing areas averaged 168.0 million pounds per day--nearly the same as a year earlier.

Milk production: May milk production was estimated at 11,283 million pounds, 2 percent less than a year earlier. Production during May provided 1.81 pounds of milk per person daily for all uses, compared with 1.86 pounds in May 1967.

Table 1.--Class I prices paid by dealers for milk used in fluid products, by regions, June 1968 1/
(F.O.B. City--per cwt., basis 3.5% fat)

United States	170	6.17	2/6.50	4.50-7.81	6.50

1/ Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 5.
2/ Revised, using weighted monthly average where price changed during the month.

1/ Federal order market unless footnote indicates otherwise.
2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Prices may be subject to quantity discounts.
6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.
7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.
8/ State-regulated minimum price to dealers.
9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.
10/ Unregulated market.
11/ Differential for May.
12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).
13/ Pittsburgh price on butterfat-skim milk basis ($0.836 per pound fat; $3.60 per hundredweight skim).
14/ State-regulated minimum price prevails over Federal order minimum.
15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.
16/ Prevailing Class I effective May 1: $5.71 at Gary and South Bend; $5.55 at Chicago.
17/ May same as June.
18/ Negotiated Class I April $5.32.
19/ February through May same as June.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in ( ).
2/ Premium (above Federal order minimum) as reported by principal producers' association. May not apply to all Class I or all pooled milk.
3/ Includes Class I premium where reported.
4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
5/ Blend price reported by principal producers' association, including the effect of prevailing premiums. Weighted average of prices for base and excess milk, where such plans are in effect.
6/ State-regulated market.
7/ Unregulated market.
8/ The following changes have been made for fall production fund subtracted: Central Arizona, Eastern South Dakota 15¢; Central Illinois, Ozarks, St. Louis, Southern Illinois 25¢; Cincinnati, Columbus, Miami Valley, Tri-State 24¢; Connecticut, Indianapolis, Inland Empire 30¢; Lou.-Lex.-Evansville, Sioux City 40¢; Fort Wayne, Mass-R.I.-N.H., N.Y.-N.J. 20¢; Nebr-Western Iowa 42¢; Paducah 50¢.
9/ Based on prevailing blend price for 15-cent zone in Southern Michigan.
10/ Average price for plants supplied by principal producers' association.
11/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order.
12/ State-regulated minimum prices at basic test of 4% for South Carolina and Louisiana adjusted to 3.5% fat.
13/ State-regulated minimum price prevails over Federal order minimum.
14/ March blend $6.51.
